recommendation that algebra is not meeting the students' needs, a new course is being proposed. This is a Common Course Number course, and Great Falls College, Flathead Valley, and Missoula College are or will be offering the course as well. It is helpful to have this designated as a Gen Ed course not only for the nursing program for students who switch out of nursing majors since they can still count this course as meeting their math requirement. The new M 1 is definitely more appropriate to majors.

IV. DISCUSSION/ACTION ITEMS

A. Report on AAC&U General Education and Assessment Conference:
